Write a C program:

- Enter a positive integer n (if n <= 0 then print out "Invalid input!")

- If n > 0 then print out min digit and max digit of n.

```
Enter n = -10
Invalid input!
--------------------------------
Process exited after 6.861 seconds with return value 0
Press any key to continue . . .
Enter n = 476329
min digit: 2
max digit: 9
--------------------------------
Process exited after 13.14 seconds with return value 0
Press any key to continue . . .
Enter n = 43561
min digit: 1
max digit: 6
--------------------------------
Process exited after 10.84 seconds with return value 0
Press any key to continue . . .
```
